

**IFA India Branch is thrilled to bring you the
India - UK Joint International Tax Conference**

**"Changing World Order
And Emerging International
Taxation Landscape."**

 **September, 17th & 18th, 2024**

 **New Delhi At 'Crystal Ball Room', of Hotel 'The Lalit'.**

IFA India has been organising its Annual International Tax Conference in New Delhi on the most current topics that are dealt with renowned National and International speakers. This Flagship event has been widely acclaimed by the industry, tax practitioners, academicians and revenue officials who look forward for the same year after year.

The much-awaited event is lined up this year jointly with IFA UK on 17th and 18th September 2024 in New Delhi in hybrid mode with the theme “Changing World Order and Emerging International Taxation Landscape”. It is indeed a metamorphic phase for the international tax world more so in the advent of digitalization of businesses. OECD G20 Inclusive Framework is grossly engaged in the Two Pillar solution as part of the Global tax deal agreed upon in October 2021.

Advancement and dynamics of Technology throw challenges to tax administrations in respect of designing the tax rules for the evolving digitalised business models. Nexus rules for taxation need to be updated on the basis of changing business models. In this backdrop, a conference of this profile is lined up to deal with most current topics such as Nexus for Taxes, Substance of Legal Entities, Global Minimum tax, Cross border restructuring and mergers, present status of Two Pillar solution, evolving perspectives of the UN and the OECD .

This conference will feature Hon’ble Judges from the Courts, Members of Income Tax Appellate Tribunal, Senior Revenue officials, renowned national and International tax experts, distinguished academicians as speakers.

About The Conference

This conference would be a festival of learning for exchange of views and knowledge sharing with renowned speakers dealing with most current topics in the international tax landscape. This event would immensely benefit tax executives, tax practitioners, researchers and young professionals.
